According to <http://www.spectrumbaudio.de/breit/vintage.html> Fostex UP203  
20cm\*8Ohm\*40Watt\*SPL91dB\*Fres40-20kHz\*Qts0,55\*18,5g Fostex UP203sigma  
20cm\*8Ohm\*40Watt\*SPL93dB\*Fres40-20kHz\*Qts0,45\*18,5g I have never heard of "Fostex  
UP203sigma". I guess they mistook it for "Fostex UP203super". Fostex international web site lists  
their products compatibility and most of their previous products, but no entry for Fostex  
UP203sigma.
