go to www.vintagetechnology.co.uk to view online edition. Monthly print editions out from Jan 2008. The world's first magazine devoted to the collection, preservation and history of all aspects of digital and electronics technology, including computers, arcade games, calculators, led watches, mobile phones, appliances, gadgets, robots, radio, audio and tv. VTM aims to explore the legacy of recent past technology, explore new 'electronica' which could become or already is collectible, be an enjoyable resource for collectors & historians and celebrate the history and personalities surrounding this subject.
