hi, great site. i plan to set up a small rental operation that sets up for parties and bands. i'm thinking 200 people maybe as many as 400 or thereabouts. what do you think, 5000 watts, 10000 watts? for parties a cd changer is good but for bands, ill need a mixer and some mics. speaks should be 18's, 15's and tops. this is what im thinking but its just my own thoughts and im looking for suggestions please. i want really good stuff, great sound.
