Let's talk seriously about doing it, Wayne. We can discuss the testing protocol, and components we can use. We'll talk soon. I agree with you, we may have to give out a lot of door prizes! Maybe just get people to do it because they want to be right...in a crowd like at GPAF that is motivation enough not to mess up the test deliberately! Heck, we can test drivers and even caps if you want. At the very least, we can test drivers and digital sources..maybe get Biob Brines's portable CD player, and compare it to a decent Sony unit. It'll be fun, and we'll make it as scientific as we can!-akhilesh
