Yes, this Kleinhorn is on the cover of _audioXpress_ this month and links are available at Full Range Driver Forumas well. There's another "Big Stuff" project by Nelson Pass calledthe J-Lo. ir was also in _audioXpress_ and features a singleEJ Jordan 92S in avery large backhorn... but at least the J-Lo is built out of standard plywood sheets with no bends. It's sort of like building an Arc in your basement.The problems moving such a construction must be considerable.
