Subject: Re: Expensive vs. Cheap Posted by Ricardo on Fri, 14 Sep 2007 10:37:11 GMT View Forum Message <> Reply to Message

I'm not quite in the market for a home theatre system, but I notice prices that are pretty low. I think I'll test the more modestly priced systems first. A friend of mine has a pricey system, including gold-plated connectors on his cables which were pricey themselves. I realize that a system's only as good as its weakest component, but is it really necessary for gold-plated plugs in a home system?
