Hi Wayne, Paul Esworthy is my ex-girlfriend's uncle and a notable good guy. He's been racing the midgets for over twenty years and has won multiple national championships. He knows his stuff and is a dirt monster. The multi class midgets are sub 1000 lb cars with modified 600 cc motorcycle engines making over 150 horsepower. They are a whole lot of fun! Now you know....the rest of the story! Jerrod
