## Subject: Any advice on working with exotics? Posted by gonefishin on Mon, 22 Dec 2003 19:33:26 GMT View Forum Message <> Reply to Message

Hi All! Any advice on working with exotic woods? Such as cocobola and ebony? I want to build myself a new chassis for a Foreplay...and have been thinking of incorporating both cocobola (for the main chassis) and ebony for the footers...or feeters...or whatever they are. thanks! enjoy the music!
