I am full of quotations today. That is the title of anessay by Robert Benchley. It always comes to mind when I have to assemble something.Today it was a Black and Decker Workmate... one of the juniorworkmates. I wanted to see how difficult it was to do asmall one. It was the first step that had me scratching myhead the most. It's together but I don't have the right sort of hex driversto get everything tightened down. I think I know a guy withsome. Also bought a spin saw... a budget one ...so I'll seewhat I can do with that. No routers on deal... even atFathers Day.
