Subject: Re: Couple of Poly questions Posted by Bill Fitzmaurice on Sun, 08 Aug 2004 20:38:49 GMT View Forum Message <> Reply to Message

If the finish is OK you can probably salvage it without going to bare wood. What kind of wood is it and how smooth do you want it? Furniture smooth or Steinway smooth? Simply taking it down with some 220 grit paper to smooth and then spraying on a couple of coats of aerosol poly may be adequate, but for a piano finish it's a lot more work.
