On Thursday, May the 4th, 2006 at 1:02:03 in the morning our clocks will show 01:02:03:04:05:06. Wow! The next digit phenomena is going to happen in 72 years, on June the 5th, 2078 at 12:34. The clocks will show 12345678. I will post you a reminder, guys, so you won't miss that amazing event in 2078. Watch your clock tonight and then!!!
