Hi Douglas,The Nickel wonder is not ready for tube rolling yet. First Jim McShane is selling 6j6's for the princely sum of .50, so I bought the asortment pac.The problem is the power supply is woefully inadequate. I bought the $12 Allied Transformer. and I got what I payed for. even moveing it to the outside of a steel box has not compleatly cured the 60hz hum. That's what I get for not breadpan..er, breadboarding it first...John
