Hi Douglas, The Nickel wonder is not ready for tube rolling yet. First Jim McShane is selling 6j6's for the princely sum of .50, so I bought the assortment pack. The problem is the power supply is woefully inadequate. I bought the \$12 Allied Transformer. and I got what I paid for. even moving it to the outside of a steel box has not completely cured the 60hz hum. That's what I get for not breadpan..er, breadboarding it first...John
