I just recieved my coupling caps and Trans. so tommorrow I start lay-out. Were you able to use Damir's photos for your CCS boards?When you say boards; do you mean PC boards and if so where did you get them etched?You never stated if you got the red LED's or where you got them.I'm trying to form a mental pic of the set-up over the I-Beams. What exactly do you have tied to the beam?If you ended up using the wood side panels how are mounting your RCA inputs?
