do you think you'll have the Nicel wonder up and running in time for the Meet on 26 March?
maybe tell Ray, you're bringing Guinevere instead...Or is it still saveable? I do hope so, I want to hear it. also, it looks like the BK16's will make an appearance. Those little guys Rock! can't wait to try them with my PP HY69 amp, not to mention the 2Pi's...regards,Douglas
