Hey-Hey!!!,After gathering up the orders, we are in at \$86 each plus shipping from Michigan for these transformers. They'll be about a month in the making and then a UPS trip to your house. I am posting an update to the Merlin schematic in both DH and IDH power stages. Email me, through the forum at least, or see my post to Cheetah below. I want to get the order in by the 7th of October.If you have to miss this order, the two-at-a-time price is ~\$20 each higher( assuming materials and shipping stay constant ).cheers,Douglas
