a group purchase...I would not mind acquiring more of them. They are nice to have on hand. I will add that the DN3545N3 can be used for the lower device to good effect and cut your need for the 2540N5 to two.Actually, I could probably offer you the pair of each at cost plus shipping if no other option is offered.Feel free to email me. Pentode-at-netscape-dot-cominclude your number and we can have a chat.cheers,Douglas
