Honestly John, I don't see any point. There is a remedy at law - the dealer will accept it as a return. But I have to admit that now I'm intrigued - this is like a view into one of those worlds you stumble into now and then - like collectors of 8-track tapes and erotic netsuke. Amazingly enough, after some more research, it seems that most people are just fine with the idea. Apparently there's a cult of Peavey devotion that doesn't worry about such minutae.I may just have to ride this out to see where it goes.
