Subject: What'cha have in mind? Posted by Wayne Parham on Sun, 28 Oct 2007 14:19:22 GMT View Forum Message <> Reply to Message

I'd like to do a nice phonp stage build. Seems like it would be a fun group build. Some of the guys were talking about a switcher. Easy to do, but still worthwhile. Could do them together too.I always stay pretty busy, and I have a list of things in front of me. I used to be able to get through new projects much faster, but these days, I have a lot of priorities. I just finished with the Prosound Shootout, which is a pretty good amount of work to do, actually. Before long, it will be time to get ready for the Lone Star Audiofest. In between times, I have two basshorn projects I'm working on, one new and the other an improved version of an existing model. What have you been up to these days?
