Okay, I'm parting out the TAD/JBL monsters that made 1 appearance at New Eng Bots a while back. As the voiceover used to say on Star Trek, "space, the final frontier." Not the great beyond - room to spare in the house!TAD 1602's and JBL2123's in fabulous shape, preferably with the 4 cu ft cabs Garland build for me based on Bill Martinelli's specs, and with Wayne's guidance.Haven't figured out what to sell them for. Depends on how many pieces depart together, I suppose.Located in Northeastern CT. No shipping. Don't ask. Don't even think about it. Paypal ok.
