Jennifer Crock contacted me with some used components for sale. Listed below are the components. I would contact her at mail@jenalabs.com if anyone is interested. "Audio Aero Capitole Mk.II, Version 2 CD player with internal volume control, tube stage, and alternate digital inputs to use it as a DAC too. I am the only owner it has ever had Box, manual and remote.....Works very well! MSRP was \$8,700.00.... \$4,500.00 McIntosh C-20 preamp, bone stock. Unused for about 3 years. Was working when I got it from another OTS memeber, Tony Glynn. AtmaSphere S-30 OTL stereo power amp, with factory upgrade teflon caps, bare copper binding posts. I had thought about using this to b- Amp my Altec 604-C mono speaker but will use passive V-O and a vintage Heathkit Williamson push-pull MSRP was about \$3700 with the options \$1,500.00 Heybrook Helios speaker system, 2 way. British built, like new very low hours. Was about \$1,500~1,800 new, \$500.00 2, as in one for the left, and one for the right, Spendor model 3 self powered subs, RCA inputs, volume, adjustable 'phase' Light birch or maple finish These are \$1,300 each, will sell the pair for \$1,300. Take care. Steve
