I have a Harmon Kardon Citation 11 for sale in MA. The amp had the power supply rebuilt. It is in plug and play shape. The front face is very nice. All lettering is there. The transformers have the usual scratches. For such outstanding iron I wonder why the paint was so poorly done on all of these amps? The amplifier looks very nice from the front. The only reason I am selling it is I do not need the power with 100dB efficient horn speakers. I am selling it for \$850 firm which is what I paid for it. Clunker units needing a total rebuild sell for 600 or more easy. I would prefer a local sale so I do not have pack up this 60 pound monster. It comes with all tubes. The output tubes are the metal based variety. Anyone interested can email me. I will also be listing a Fisher FM-1000 tube tuner and a few other goodies in the future to include a Nitty Gritty 3.5 Fi record cleaner.
