Hi Everyone,Before hitting audiogon, I thought i'd put it for sale here. It's in virtually new condition, sounds great, and i will supply extra input tubes, as well as an RCA rectifier tube, that apparently sounds better than the stock rectifier tube. It also has brightstar audio gel feet, that perceptibly sharpened the imaging, since microphonics due to vibrations were reduced significantly. The feet are a $20 value. The RCA tube is a $15 value. It's blue in color, bought around May 2005, original box. Fantastic shape...no visible scratches. Asking $499 INCLUDING SHIPPING n the continental US. (it sells for $678 plus shipping if you buy it from decware) Serious emails only please. No lowballers. -akhilesh
