Extremely high quality bass. These are the drivers used in the Avolon Acouticsspeakers that cost 47,000.00 per pair!!!Ladies and gentlemen, you cannot have live sound in yourhome with 6" woofers. These cabinets are double walled that can be sand filled ifdesired and have a rear port that is tuned to 22 hz. Effeciency is about 95 db per watt. 4 ohms Truely "state of the Art" bass system. If you want to take your satalites to another levelthese babies are just what the doctor ordered! Also have the 6 or 12 db passive crossovers. My ebay handle is jimpcn. Buy with confidence. Thanks for looking. Jim 905-821-2566 after 7:00
