These are the prettiest pair of horns I've ever seen, but I'm up to my eyeballs in speakers and I'm just not makin' good use of them, so some lucky horn fan is gonna get a fantastic top half. The TAD1602 woofers are gone; JBL 16 ohm 2123 mids are still available as are the 4 cu ft cabinets that held both with internal sub-enclosure for the 2123. Email me
