Ad is at:http://cls.audiogon.com/cgi-bin/cls.pl?intamult&1162761188I am asking $149 for this plus shipping. Email me if interested. I used it to biamp my horn system, but just switched to all tubes. Great amp, solidly made like all Luxman, 25 watts per channel X 4, with individual high quaity volume controls for each channel. -akhilesh
