I have a pair of Coral XP-1201 speakers that I bought new back in the mid 70's. They are in very good condition. They are 2 way bass reflex speakers with manual crossovers. They have 2 tweeters, a supertweeter, 2 mids, a woofer and subwoofer. They also have reversible grill covers. The mids need re-coned, but other than that they're in very good condition.I will be glad to supply photos etc. if any one is interested.
