Subject: F200A and T90A sale botched by Ebay

Last week I listed the above speakers (two of each) here refering to my listing on Ebay and yesterday they ended my auctions early for some reason and will not take responsiblity for it. I am really upset with Ebay right now. I hope to have the situation fixed and list the items again early in the New Year. This is a real problem because I am going away until Jan 4 for Christmas. I am very sorry about the confusion. Kind Regards,Doug
