I have a used Crown CP660 that I'm thinking about getting rid of. This is a 2 rack space pro amp that does 90x6 into 8 ohms and 130x6 into 4 ohms. The channels can be bridged in pairs to get 250 per bridged pair. The amp's fan is very quiet. Any other info can be found here:http://crownaudio.com/pdf/legacy/128414.pdfhttp://crownaudio.com/pdf/legacy/125381.pdfThis amp has only been used in home audio systems and has not been abused. Cosmetically it is in good shape; I can take pictures if needed.The amp sold new for something like $1200. The only one I've seen used online is currently on ebay for $630. I'm looking to get $400 for mine. I'd also entertain partial/full trades. I'm looking for:- B&C DE250- BMS 4540ND- Beyma CP380M- ART SLA-2- Behringer EP2500- Behringer A500- any 2 channel single rack space amp- try meIf you are interested, please contact me at nar160@psu.edu. Thanks.
