I tried asking at audioheritage last fall and they didn't have anything, either. Someday when I have the time, I'll take them to a speaker shop in Chicago to get measured. But that means taking them out.... hmmm, not so sure now.... Think they'll go that low?! I cranked up the Saint-Seans organ concerto, and it seemed to go aaaalllll the way down. My amps only do 20hz, tho.
