I do not like the sound of the SWR (4) 10" cabinets with the horn. My Favorite setup for small stages, studios. 1 Cube 24/24/24" with a D130 One 4" dia 13" long port. It would satisfy. Medium hall: The two 15 peavy cabinet, loaded with EVM15B's Large hall: (4) 8 10" Ampegs... with 4 heads.
