Wayne, Wayne, Wayne. I was a DGer for 14 years, 1976-1990, until I was one of the 2700 instant winners in the "Get away from Ed" contest. Cut my teeth on Novas, worked on a Supernova at the U of M, serial number 17, but I'm sure this is off topic and boring to anyone else on this board. My badge number was 8696, what was yours?
