Subject: Thanks for the reply Posted by NickR on Thu, 10 May 2001 11:35:37 GMT View Forum Message <> Reply to Message

I didn't know that large woofers could go to the 1k-2k range. I keep reading about 'beaming' and distortion and all that. That's the danger of trying to learn about this stuff. It's hard to 'learn a little'. There's really too much ground to cover for someone who isn't doing this full time. Thanks again -Nick
