hi wayne, i've forwarded the plans for the premium stage 4 pi's to my cabinetmaker. which measurements do i use? on the website they are 26"  $\times$  18"  $\times$  14" but in your plans they are 26.5"  $\times$  18.5"  $\times$  14.25". also confirm that the port size is correct as well. thanks george.
