Fine with me, Andy... go ahead and post mine. OK, guys, don't laugh, I drew them with Paint in a hurry. But then again, I saw a site for spkr plans, looked worse than my doodlings on napkins in diners. Poor hand sketches on graph paper. The guy did not even use a ruler to draw straight lines. And most are so bad you can't figure them out. Hah! Please be aware that the resistor/cap in the woofer sections (Zobel, imp compensating) are computed for the particular woofer, you will have to recompute these for your woofer. Paul
