Subject: Re: tweaking my x-over Posted by Wayne Parham on Sat, 15 Sep 2001 18:50:18 GMT View Forum Message <> Reply to Message

The schematic comes with the plans, so you can build from that. I'm sorry but I don't have a step-by-step wiring diagram, just the schematic. In a couple weeks, I'll have some free time so I could build them for you if you want. Just send the parts or let me know what you want and I'll get them for you. Let me know.
