Colin, Can you reiterate some of the conversations you've had with Wayne comparing the sonic attributes of the theater 4 Pi with the Delta 15 and the one you are building with the Eminence Kappa 15LF. What are the dinensions of the revised cabinet w/the Kappa's? Why didn't you decide to go with the Stages or Pros with their smaller cabinet, if I might ask? I have a need to keep the cabinets as small as possible but don't want to give up too much of the dynamic range that I hear these speakers revel in. Also, what tweeter are you using?Thanks!Garland
