Wayne,Could you send me the plans for the Premium Stage Four Pi? I've misplaced the paperwork I had printed out and can't seem to find the e-mail you sent. I do have all the parts (I think), and am in the process of drawing up the cabinet plans for my buddy who will build them for me. If it weren't for this little holiday called Christmas getting in the way, I'd probably have these built already :)Thanks,Colincolinfritzke@shaw.ca and/or colin.fritzke@telus.com
