Subject: Re: Is this horn flare suitable for PSD2002? Posted by Super_BQ on Fri, 28 Dec 2001 09:08:54 GMT View Forum Message <> Reply to Message

I've looked at the Sammi line of horn flares then found that they are a little different than the CH-3, 2370, or H-290 flares. The Sammi SH350 is a bolt on exponential horn similar to what is required

what effect would using the SH350 wide dispersion have over the typical 2370 size horn flare for the Theater 4 Pi?
