I came up with a raw parts cost of about \$221 for one Theater 4 Pi. Does this look correct? All from <http://www.partsexpress.com>

Parts for Theater 4 Pi-----

290-418 Eminence Delta 15A \$67  
290-442 Eminence PSD2002 \$62  
290-554 Eminence H290 horn \$30  
290-634 Eminence pxb2-1k6 crossover \$32  
67 + 62 + 30 + 32 = 191 Separate crossover parts-----

019-020 8 ohm 100W non-inductive resistor (R3 - one per speaker) \$11.50  
027-436 20uF, 250V polypropylene capacitor (C5 - one per speaker) \$4.95  
004-16 16 ohm, 10W non-inductive resistor (R1 & R2 - eight per speaker) \$1.50  
027-458 0.47, 400V polypropylene bypass capacitor (C1 - one per speaker) \$1.38  
1.50 + 5 + (8\*1.50) + 1.50 = \$30  
Total 191 + 30 = 221
