Jammin Jersey, worst kept secret on the net for used pro speakers.I will have, probably, a pair of either 2035H or 2226J for sale cheap, depending on what I build with the junk I bought at the tent sale.You really should sink $232 into a pair of the 3677 and be in the catbird seat yourself. Put the drivers into a 9 cu ft box and dig some French organ music.$232 including freight for almost $1000 worth of speaks! Sell the organ.
