Subject: Re: Possible use of Lambda woofer in Pi enclosure. Posted by Wayne Parham on Thu, 03 Jan 2002 01:08:32 GMT View Forum Message <> Reply to Message

Speakers having asymmetrical slopes, electrically second or third order. First-order and pseudo-first-order filters work well in some cases but since your woofer generates output to 4kHz, I don't think it's going to be a good option. I'd probably use a higher order low-pass filter on the woofer instead.
