Hi Wayne. I E-Mailed you last week. Thank you for your response. After looking at your lineup, I think I am interested in the Theatre Four Pi. Can the JBL 2426 be used with the Eminence 15" Delta Pro? Would the balance be OK? Second Subject. I have a JBL D130 & 075 Ring Radiator. They sit in a falling apart very old HeathKit enclosure. My Paramour easily drives them very nicely to a good (for me) level. Does your Professional Series relate at all efficiency (or soundwise) to my old mono setup? I have loved my D130 over the years. I have had it since 1957. Anyway, I would consider the Pro Series if my Paramours could handle it. I know my old McIntosh 250 amp will. I would appreciate your comments. Matt Reddington in DaytonI would appreciate the plans for the Four Pi Theatre speaker.
