about an ohm DCR and 1.27 mH inductance. Used with about 14.3 uF of cap (solen), they made nice 1200 Hz. series xovers between the 4648a-8's and altec 511/902-8b's. Very minimalist, and the sound is as good or better than the pair x'd at 600 Hz. w/ normal BW's(12 dB/oct). Sam
