One of my favorite Eminence 15" drivers is the Omega 15. The Kilomax 15 is a good driver too, very robust at higher sustained drive levels. And the Delta 15 is really great for the price. Those are my favorites 15" drivers from Eminence.From an overall price/performance perspective, the Omega 15 is good because it sounds clean and doesn't cost much. Works great in 2ft3 to 6ft3 cabinets. The Delta 15 sounds nice too, but needs a larger box. For extended high-power levels, go with the Kilomax 15 which works in the same cabinet as the Omega 15.
