First test of my Theater 4Pi's last night , seeing Jurassic Park3!First 3 minutes scared the hell out of me and my girlfriend :)Great!Will take some pictures later.Now next project will be Studio 2Pi's as surround speakers.Can you mail me the plans?Thank you for an impressive experience.I do have a question ,any ideas about a Center speaker that can match those Pi's?? , I have some Altec alnico drivers with 2*511/1*811 horns, but which bass units, have to be shielded.Best RegardsJan Bundgaard
