---

Are they Evil for use as C1?(two 1uF 250V in seires is pretty close to .47)I found a good source..  
[www.goldmine-elec.com](http://www.goldmine-elec.com)They also have sandstone power resistors. Will proly buy a zillion  
68ohm 25W sanstone resistors. 7 in parallel to make R3 and 4 in parallel to make R1 and R2.
