Daniel, I'll e-mail the pics. And Sam, the boss was actually pretty pleased to see them go; not many places to hide em in our crowded architectural office. Tottman- the Paramours got put together concurrently with the Pi's and unfortunately they are pretty much stock- a bit of paint on the chassis plate and transformers and the alder wood base oiled and waxed with a 3/4" roundover on the top edge. Later I'll go back and do em up!- after the mods have exhausted themselves. Replay... not until I move to a smaller house! And Bill, It was fun putting these things together just after you did yours. Thanks for running a few blocks for me! Thanks again for everyones help and I wish the pictures could show how they sound! But then most of you already do. And now the fun really gets interesting...! The Music! Thanks again, Wayne!G.
