Subject: Re: 7's with H395's. Posted by Rider on Thu, 07 Mar 2002 19:52:15 GMT View Forum Message <> Reply to Message

Hi Wayne.I'm thinking about replacing the H395 horns in my speakers. I was figuring I could get some JBL 2370's and put a new plate of wood on the front of the 7's and make a new cut out. That would make them "right". What do you think?Thanks for your time as usual,Grant.
