Thanks for posting this idiotic "article" about "10 lies in audio".Strong opinions, like: "tubes...idiotic design like 8W SET", and his other 9 points. Everyone who has even small experience in audio can find totally opposite examples/experience then his "10 lies/truths".Opinions and "knowledge" like that you can find every day on various audio forums from various "experts" and trolls - serious writer/magazine /book/engineer is a something else...
